Directions

To transfer pattern to bisque: trace pattern onto tissue paper using pencil. Lay tissue paper onto bisque placing the pattern in desired position. Trace over pattern using Sharpie Marker. Remove tissue paper and paint in pattern. Sharpie outline will disappear with firing.

To Make Sticker/patterns:

A) Print out patterns on regular paper and cut them out. Dampen with water and “stick” onto bisque or apply to wet paint.

B) Print the patterns out on Avery label paper and make your own “stickers”. After applying paint over the label “sticker” let it dry completely before removing; this will alleviate any glue being left behind on bisque which will cause crawling.
