

Gingerbread Mug

Recipe Courtesy of Gare, Inc.

Ingredients

4005 Tall Cone Flare Mug

FS2300 - Polar Bear
FS2314 - Black Lab
FS2327 - Blazing Saddle
FS2368 - Old Yeller
FS2392 – Rockin' Red

Detail Brush

6 Round Brush

8 Round Brush

6322 Fun Writer (1)

Sponge

Gingerbread Man Paper Cut-out

Special Notes:

General information about the paper technique: The paper has to be applied with a glaze under it as in this technique. It can not stick directly to bisque because when the bisque dries it will fall off. Also the paper must be wet in order for it to stick to the glaze. When using smaller paper pieces you can dip right into the water, apply, and use a sponge to dab off the excess. If the paper stencil is large you won't be able to dip it into the water because it will be too flimsy. Instead, you will need to use a soft fan brush and wet the brush and apply it to the area that you'll be putting the pattern. Do this lightly so you don't mess the design, then dab it with the sponge to remove excess water. This technique doesn't work well if the paper is applied to wet glaze from recent application. Glaze must be dry to the touch. (If you want to do this technique right onto the bisque without any color you would need to use contact paper instead of regular copy paper)

Directions

Step 1- Apply 3 coats of Blazing Saddles to the entire mug using a # 8 round brush.

Step 2- Trace and cut out the pattern of the 6 gingerbread men. Dip each paper gingerbread man into water and apply going around the mug.

Step 3- Sponge 3 coats of Rockin' Red around the gingerbread men and the whole center area of the mug as seen in photo. Take the red about an inch

below the top and bottom of the mug. Wave the edge of it so it's not a straight line. Shade at the edge of the Rockin Red with Black Lab and a # 6 brush. Peel off paper.

Step 4- Using a fun writer filled with Polar Bear, apply all the white icing. Use the back of a brush and apply the buttons with Old Yeller. Use a small detail brush and apply the mouth with Rockin' Red and use Black Lab for the eyes and nose.

Step 5- Dip into Dazzle Dip clear glaze and fire to cone 06.
