Fun Writers

ColorStix Soft Fan Brush #6541

ColorStix 6 #6505

Assortment of smaller brushes

Directions

Step 1- Cover the plate with 3 coats of Polar Bear using the fan brush. Let dry.

Step 2- Create random sized red ovals all over the plate. These will be the bodies of the lady bugs. Fill the bottom of the plate with more bugs and then create a wider dispersion of them towards the top.

Step 3- While the ladybug bodies are drying, work on adding the hearts. Using the fun writers, create random sized hearts all over the plate. Again, create a smaller and deeper concentration of them at the bottom of the plate and a wider, larger dispersion of them towards the top.

Step 4- After the ladybug bodies completely dry go back over them using the black fun writer. Add spots, legs, heads and antennas.

Step 5- Using the fan brush, paint back plate with 3 coats of Rockin' Red. Let dry.

Step 6- Paint top and sides of Heart Bisque with 3 coats of Rockin' Red. Let dry.

Dip in Gare 9000D and let dry. Squeeze some Bumpy Doodle on the back of the heart and place it on the plate. Let dry and fire to cone 06.

Use same directions/colors for mug and bowl. Be sure to put some bugs in the bottom of the mug!!
