Directions

Step 1- Apply 3 coats of The Naked Truth to the neck and arm area of the plate using the # 6 round brush. Use paper strips to mask off the side area where the arm will be and cut out the paper neck pattern. Dip the paper into water and lay the paper in the arm and neck area. Use a damp sponge and your fingers to make sure the paper is down tight so you don't have color leaking under it.

Step 2- Apply 3 coats of Black Lab with the # 6 round brush to the whole t-shirt area then peel off the paper.

Step 3- Using the Cricut machine cut out a stencil of 4 or 5 different paint splotches or trace and cut out the pattern onto a regular piece of copy paper. Cut out around each paint splotch so that you are using the outside stencil of the paper. Dip it into water and place as many as you want on your t-shirt. Use a damp sponge and your fingers to make sure the paper is down tight so you don't have color leaking under it.

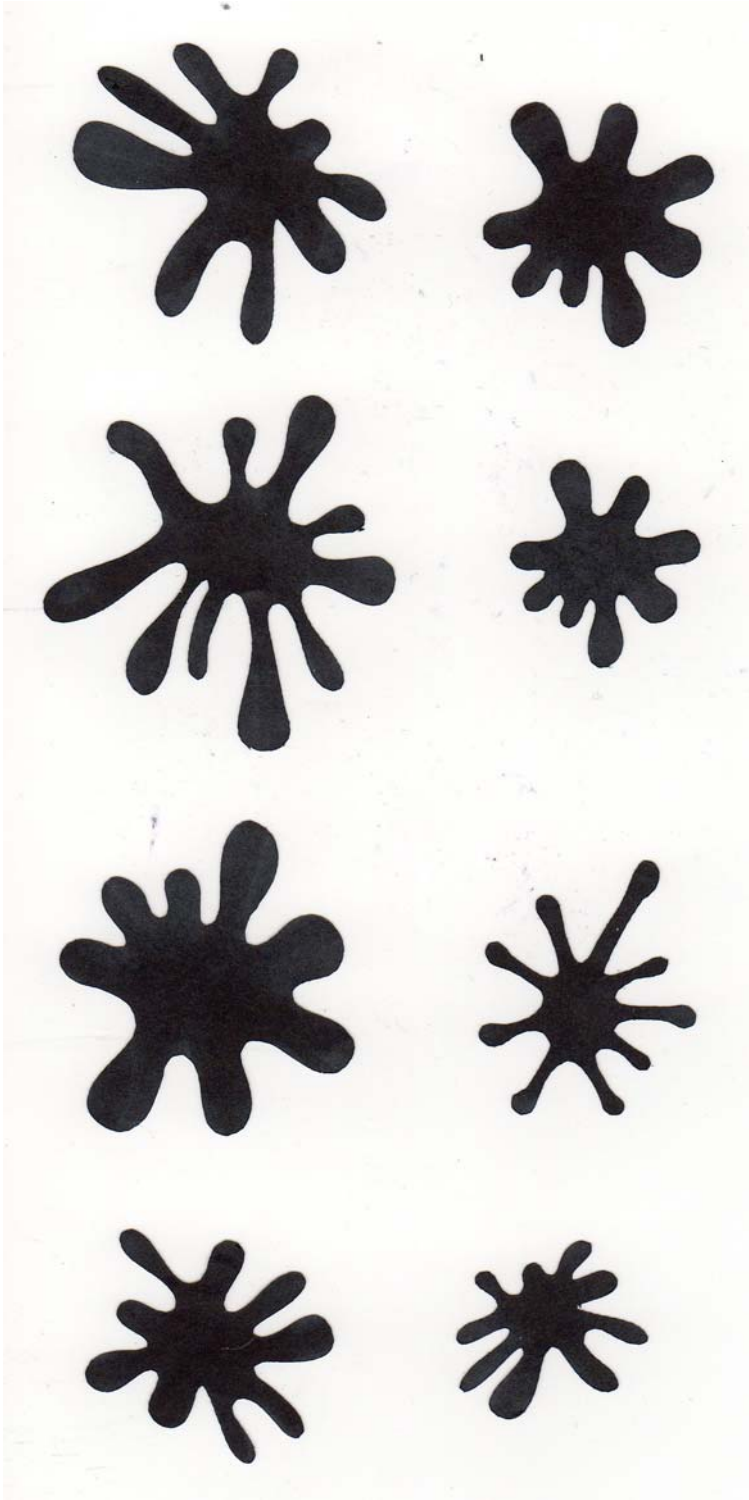

Step 4- Use the Fun Writers filled with Key Lime Pie, Blue Heaven, Smilely Face, Orange Crush, Rockin Red, and Jumpin Jelly to fill in each paint splotch. Let dry for about 5 min. and remove paper.

Step 5- If you want to add cuffs on the end of the sleeves and the neckline add a small piece of wet paper about a half inch down from the sleeve. Paint on one coat of the Black Lab and run the comb through it while it's still wet. Do the same for the neckline.

Step 6- Dip into Dazzle Dip Clear Glaze and fire to cone 06.
