

Personalized Funky Design

Recipe Courtesy of Gare, Inc.

Ingredients

#1002 Rim Dinnerware

FS 2300 Polar Bear (Fun Writer)
FS 2301 Smiley Face (Fun Writer)
FS 2303 Lime Ricky (Fun Writer)
FS 2314 Black Lab
FS 2390 Orange Crush (Fun Writer)
FS 2392 Rockin Red (Fun Writer)

6605 Ultimate Round Brush #12

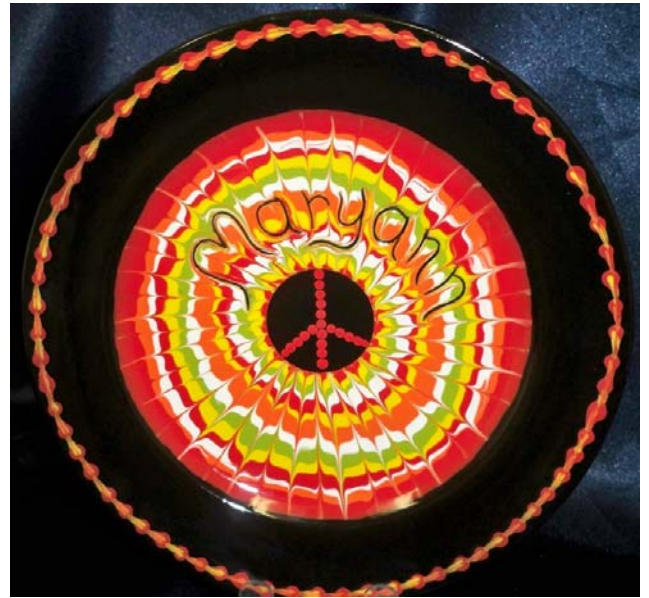

6530 Colorstix Liner # 1

5 Fun Writer Bottles

Sponge

Paper

Scissors

Directions

Step 1- Apply 2 coats of Black Lab to the entire plate. Cut out circle pattern. Dip into water and apply in the center of the plate over the Black Lab.

Step 2- Using Polar Bear, Orange Crush, Lime Ricky, Smiley Face and Rockin Red from a Fun Writer bottle, start at the edge of the paper circle and apply circles alternating the colors. Make sure each circle of color connects to each other. Bring all the circles to the edge of the rim.

Step 3- Use the # 1 liner brush and pull a line through the circles of paint going from the center to the edge then pull the brush through the circles going in the opposite direction...edge to center. Do this around the entire ring of color. You will see that you're doing it right quickly because it will match the design in the photo.

Step 4- Peel off the paper in the center. Apply dots of Rockin Red using a Fun Writer to make the peace sign.

Step 5- The outer edge design is done by applying dots of Rockin Red with a dot of Smiley Face inside the Rockin Red then just connect the dots using the # 1 liner brush.

Step 6- To personalize the plate you can use the back of the # 1 liner brush or any small handled brush. The glaze should still be wet but not as wet as when you first applied it. Wait at least 5 to 7 min. then pull through the glazes slowly and write your name. The glazes will separate and you will see the Black Lab show through. (Refer to the "Pulling Technique" video on the "Videos & Tips" webpage of www.Gare.com)

Step 7- Let dry and dip into Dazzle Dip clear dipping glaze. Fire to cone 06.
