

Pottery Glaze Personalization

Recipe Courtesy of Maryann O'Hearn

Ingredients

Gare 4x6 Wide Message Frame # 5092

Mop Brush

Scissors

Pattern

NTG-9516 Midnight Stone

NTG-9528 Sandalwood

Directions

Step 1 - Apply 3 coats of Midnight Stone to the entire front of the frame using a Mop Brush.

Step 2 - Cut out pattern. Dampen cut out design with water and apply on top of the Midnight Stone. Place as shown on the photo or you can design it your own way. (Special note: Never wet regular copy paper and apply directly to bisque because the bisque will absorb the water and the paper will fall right off. You will always need a coat of glaze before doing this technique unless you're using stickers.)

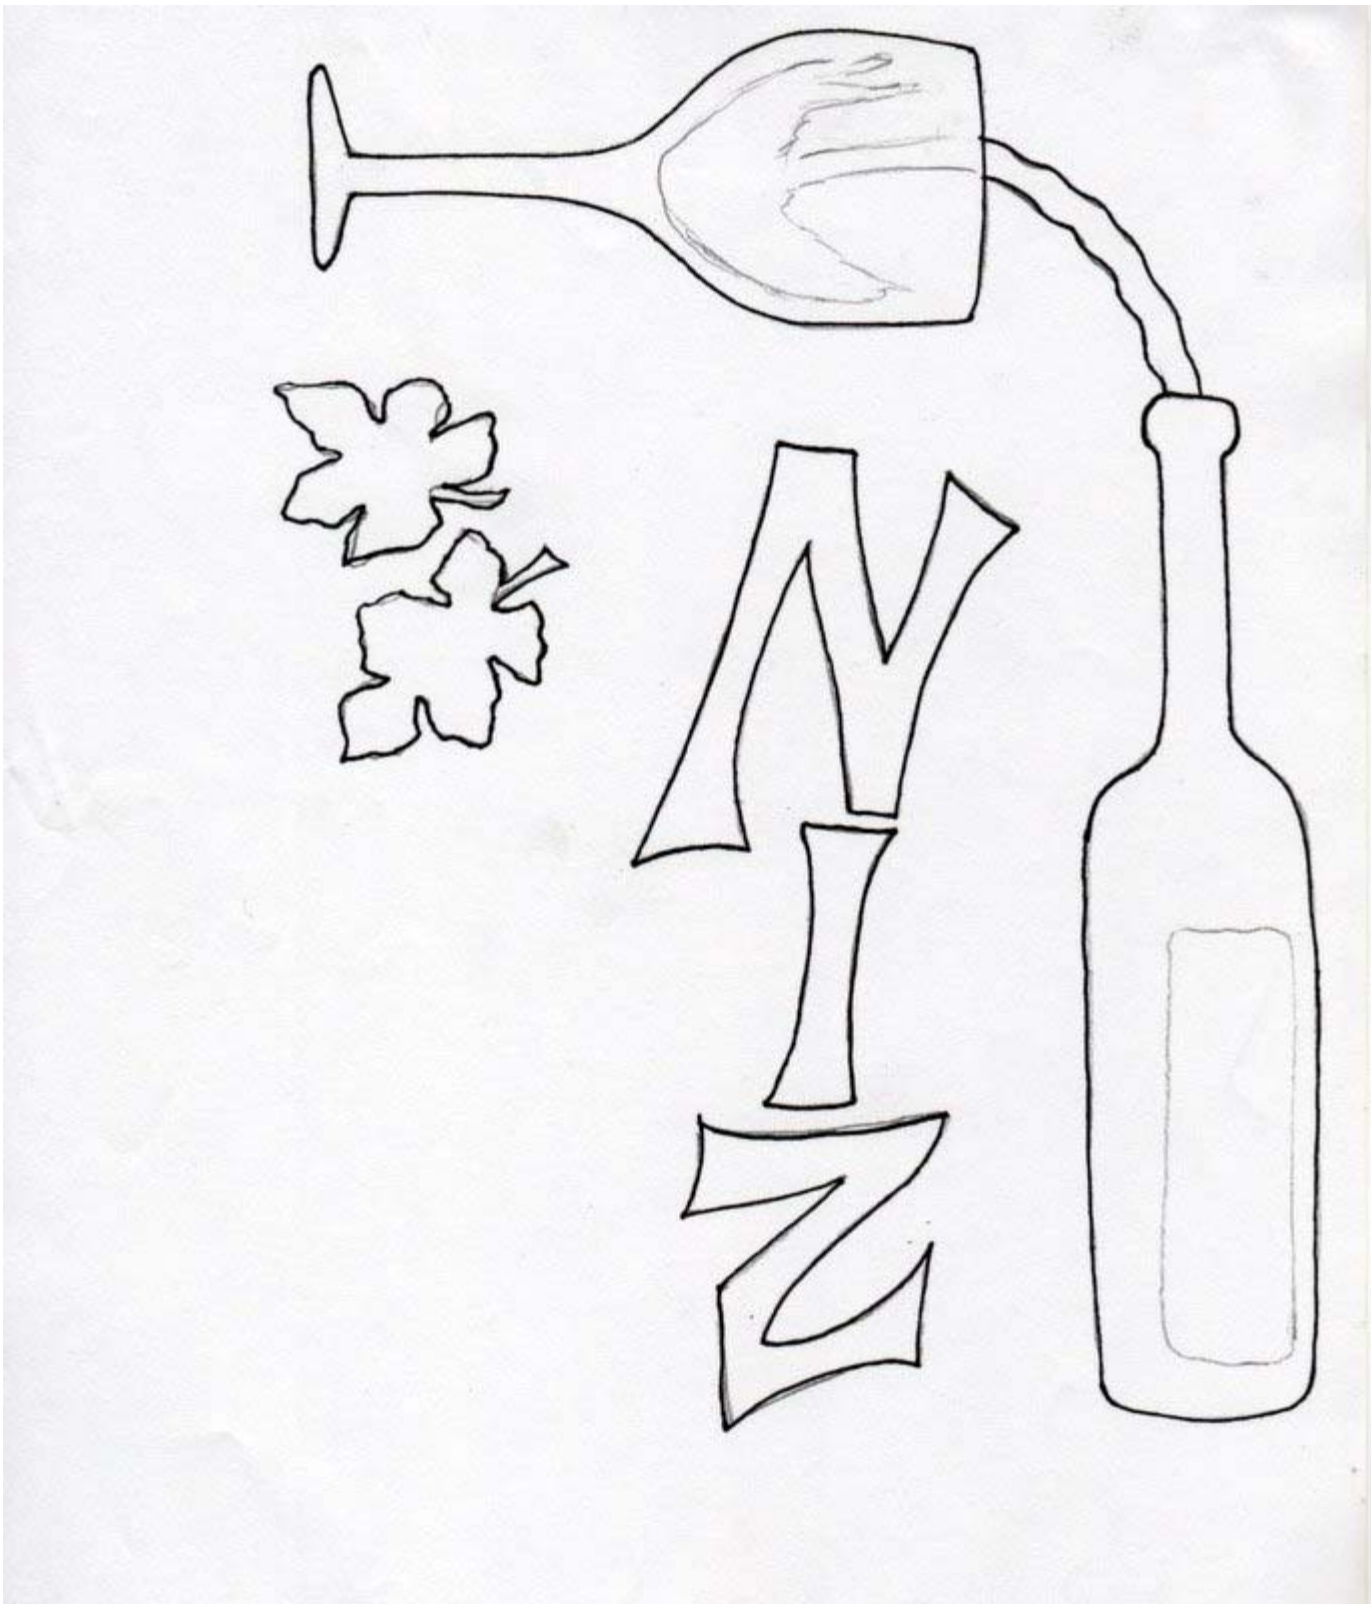

Step 3 - Apply 3 coats of Sandalwood to the entire frame going over the paper designs and the Midnight Stone.

Step 4 - Let dry to the touch then pick off the paper with a small tool or common pin.

DO NOT DIP into clear glaze and fire to cone 06.
