## Directions

**Step 1-**Apply candy corn stickers around upper inside edge of tray and in the center of the single chip/dip in a random pattern.

**Step 2-**Place equal amounts of Polar Bear, Smiley Face, Tweety Bird and Pumpkin Pie on a plate along with a small amount of water. Wring out sponge and begin dabbing it into the colors and the water. Practice on a spare piece of bisque or on a paper towel to get the right effect. Use less of the Pumpkin in the beginning, leaving it as an accent for around the top of the chip/dip and in random areas of the tray. See pictures. Let dry.

**Step 3-**Cut out boxes with pumpkins inside. Remove one of the stickers surrounding pumpkin and place that on the previously sponged areas. (Work one sticker at a time as the “sticking” time is short).

**Step 4-**Follow directions in step 2, using the Orange Crush and Orange Peel. Again, use the darker color sparingly, saving it as an accent. Pour some Kermit in a separate area and using a clean sponge, dap onto stem area of pumpkin. Let dry.

**Step 5-**Using the smaller brushes, paint in eyes, nose, mouths and ridges of pumpkins freehand. Let dry.

**Step 6**-Cover inside upper edge of tray and dip area of chip/dip in 2-3 coats of Black Lab. Let dry completely. Remove stickers.

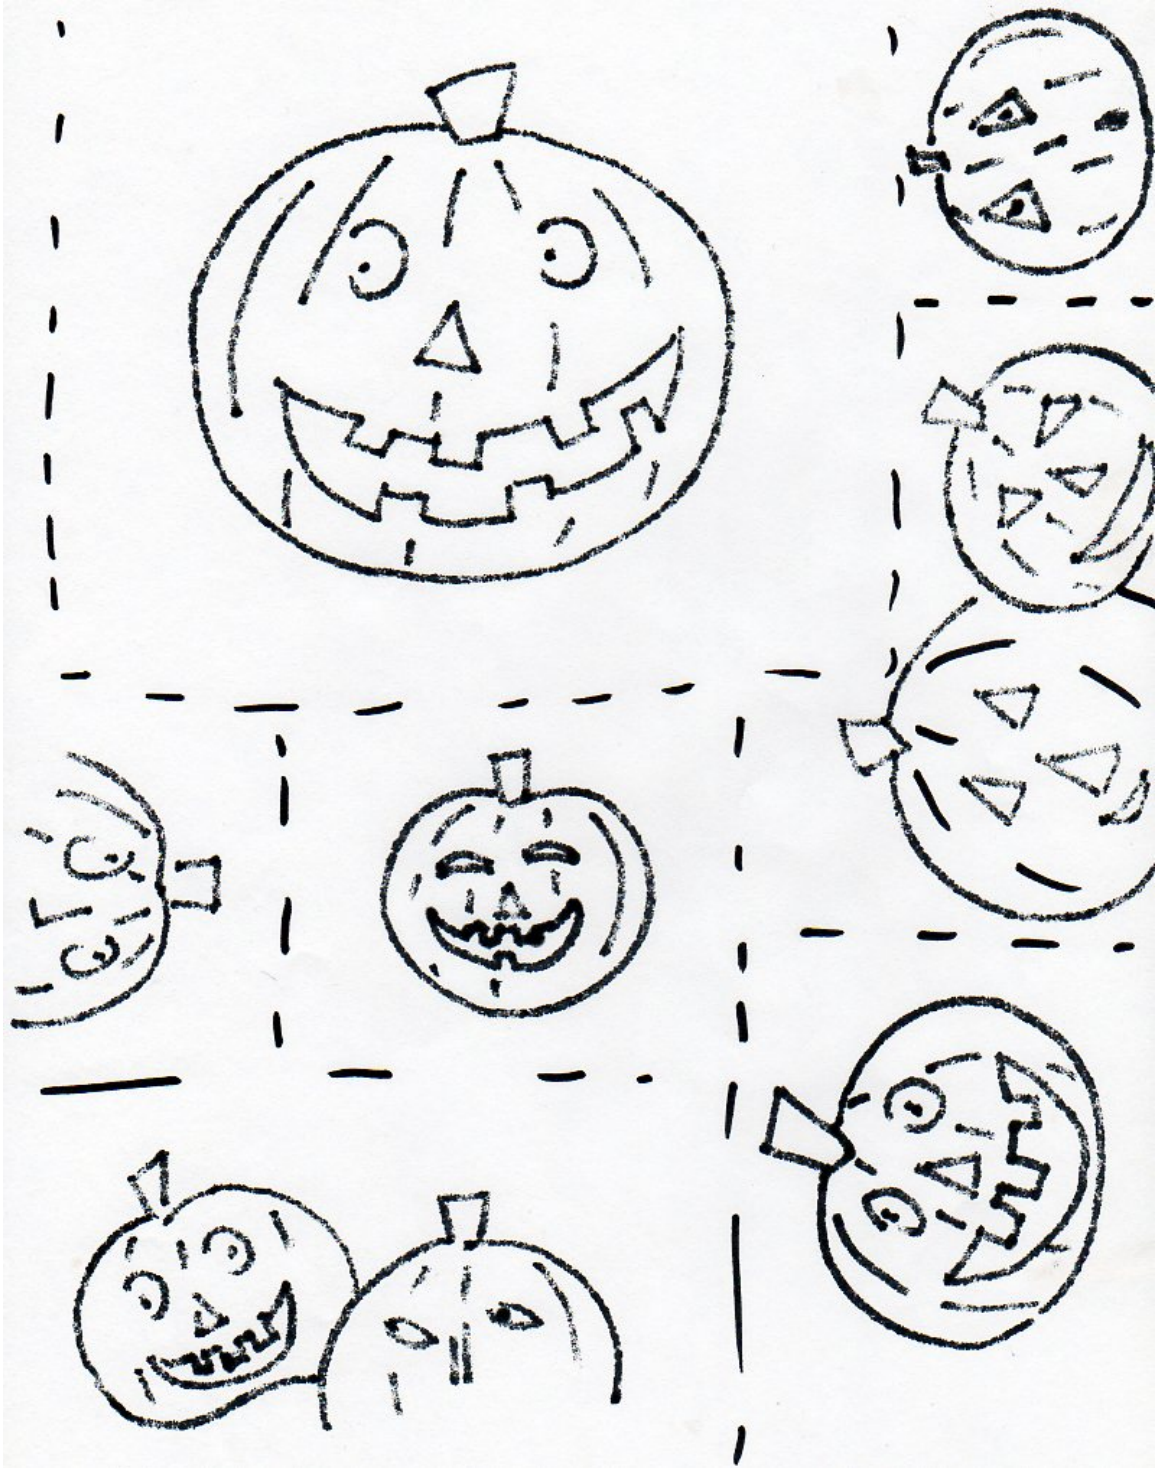

**Step 7**-Using smaller brushes, fill in the candy corn.

**Step 8**-Paint outside of tray and bottom of chip/dip in 3 coats of Orange Crush. Let dry.

Dip in Gare 9000D and fire to cone 06.
