Bud Vase Trio

October 2003

by Mary Ann O'Hearn

Ingredients:

BISQUEFIRE

7067 Conical Shape Bud Vase

7068 Ball Shape Bud Vase

7069 Pear Shape Bud Vase

POTTERY GLAZES

NTG 9514 Riverstone

NTG 9317 Volcanic Embers

9555 Magic Flow

NTG 9019 Jet Black

STEP 1 - Use Bisquefire item #7069 Pear shape vase, pour Jet Black to the inside of the vase, roll the glaze around for coating and pour the excess back into the jar and let dry. Apply 3 coats of Riverstone to the outside portion of the vase and let dry. Apply one thick coating of Magic Flow from the top rim of the vase downward in a wavy formation and let dry.

STEP 2 - Use Bisquefire item #7068 Ball shaped vase, pour Jet Black to the inside of the vase, roll the glaze around for coating and pour the excess back into the jar and let dry. Apply 3 coats of Jet Black to the top of the vase down an inch or two in a wavy formation and let dry. Apply 3 coats of Volcanic Embers (according to directions on the back of the jar) to the remaining outside portion of the vase and let dry. Apply one coat of Magic Flow, right under the black glaze section and let dry.

STEP 3 - Use Bisquefire item #7067 Conical shape vase, pour Jet Black to the inside portion of the vase, roll the glaze around for coating and pour the excess back into the jar and let dry. Apply 3 coats of Riverstone to the top portion of the vase in a wavy formation. Apply 3 coats of Jet Black to the remaining portion of the vase and let dry. Apply one coat of Magic Flow from the top in a wavy formation and let dry. Use the photograph as a reference guide.

STEP 4 - Fire to shelf cone 06.
