

Recipe of
the Month!

Color Splash Frame

project time -2 hours

INGREDIENTS

BISQUEFIRE

5025 Square frame
w/glass & easel

FUN STROKES

FS- 2305 Blue Heaven
FS- 2314 Black Lab
FS- 2376 Bouncin Berry
FS- 2387 Pool Party

Materials:

3- Fun Writer Bottles
Mop Brush
Paper Plates
Synthetic Sponge

Special Note:

Don't tip the frame at all while it's still wet because the paint will move.

STEP 1- Apply 2 coats of Black Lab to the top and sides of the frame.

STEP 2- Fill 3 fun writer bottles. One with Bouncin Berry, one with Blue Heaven and the other with Pool party. Squeeze a row about an inch long butting up against each other onto the edge of a paper plate. Tip the plate so that the colors flow to the edge and drip off onto the frame. As the colors get to the edge of the plate right before it drips off they will blend together and then will drip in a multi colored drop. They will be different sizes. You can use more than one for this technique.
