Step 1- Apply 2 coats of Black lab to the base of the margarita glass and the top part of the glass. You can do the stem also if you don't want the Jumpin Jelly. Apply 3 coats of Jumpin Jelly to the stem of the Margarita glass.

Step 2- Using the Jumpin jelly in a Fun Writer bottle, do a swirl from the inside of the bottom of the glass up to where the glass starts to open. Also write the name "Rome" with the Jumpin jelly. I have Li'l Boy Blue for "Florence". Red Blaze for "Venice". Old Yeller for "Assisi" and I did "Italy" in Lime Ricky. "It's five o'clock somewhere" with Lime Ricky around the outside top.

Step 3- Apply one coat of Polar Bear in the center area of the base as seen in photo with the Fun Writer. Apply Lime Ricky to one side area of the base and Red Blaze to the other side area of the base the same as the Polar Bear. Clear Glaze and fire to a cone 06.
