FS- 2304 Green Acres
FS- 2392 Rockin Red

STEP 1- Apply 2 thin coats of Polar Bear to the top of the plate going around the edge. (You can do this plate without applying the Polar Bear but it will be a lot harder to clean/scrape the edges if you mess up on the red.)

STEP 2- Trace pattern

STEP 3- Apply 3 to 4 coats of Rockin Red to the areas that say R on the pattern.

STEP 4- Clean edges by scraping with a cleaning tool. Make sure when you do this when everything is dry. You will have a hard time doing this if the Rockin Red is still wet.

STEP 5- Using a # 6 round brush, wet, dab and slide the brush down one side of the Rockin Red so that there is one side of the brush with red and one side with water. Now apply a line in the center of each stripe as shown in photo.

STEP 6- Dip into clear glaze and fire to a cone 06.

Coordinating Plate

STEP 1- Apply 3 good coats of Green Acres to the entire plate. Dip into clear glaze and fire to a cone 06.
