This technique can get very messy. Wear an apron and put newspaper under piece being painted as well as on the floor under work area.

Please read through instructions before beginning.

## Cereal Bowl

**Step 1-** Pour a medium size amount of Nantucket Blue onto a paper plate. Add small amount of water and mix. Using the Mop brush, apply paint to small area on the inside of the bowl, then blot area with the damp sponge. Continue in this manner until the entire inside of the bowl is covered painted and sponged.

**Step 2-** Pour small amounts of Polar Bear, Black Lab and Blue By U into the 3 plastic bowls. Add a small amount of water to each container and mix. The paint should be thin but not transparent.

**Step 3-** Starting with the Black Lab; load the Elite 6 brush with paint. Wipe the brush once along the side of the container to get rid of drips. Holding the long wooden brush in one hand, (brush end inside hand) and paint loaded Elite in the other, begin tapping the middle of the Elite brush on the middle of the wooden handle of the other brush. The brushes should only be about 4-5 inches away from the inside of the bowl. The closer the drops of paint land to the bowl, the smaller the drops. Keep loading and tapping, moving around the inside of the bowl, until there is a light covering of black dots. Using this same method, tap next with the white and then the Blue By U. Finish by again tapping on a layer of black.

**Step 4-** Paint the outside of the bowl with 3 coats of Blue By U.

**Step 5-** Paint the outside of the Mug and the Soup bowl using the method detailed in Step 3. Paint the insides of these pieces with 3 coats of Blue By U.

**Step 6-** Clear Glaze and fire to cone 06.
