Wipe down the bisque with a damp sponge. Pour the thinned down Polar Bear into a small paper cup. Pour enough to cover the entire piece. Roll it around until the piece is covered. Don't let your piece dry. While it's very wet, squeeze some Blue- by-You onto the wet white glaze from a Fun Writer bottle, just a few streams. Move the piece in different directions until you get a look that you like. How you leave it is exactly how it will fire. It does not move when fired. It will take a few minutes to dry. When it dries, wipe off any excess glaze with a damp sponge.

STEP 1- Apply 3 coats of Blue-by-You to each piece that you want solid.

STEP 2- Dip into clear glaze and fire to a cone 06.
