Pottery Candle Pedestal

February 2004
by Joyce Caswell

INGREDIENTS

Bisquefire:

4018 Vase w/ Scalloped Edge

Pottery Glazes:

NTG 9318 Stormy Blue (Crystal)

NTG 9323 Babbling Brook (Crushed Crystal)

NTG 9522 Ocean Mist

NTG 9555 Magic Flow

Step 1 – Pour Ocean Mist inside the vase, roll the glaze around for coating and pour the excess back into the jar. Let dry. With a fully loaded mop brush, apply 3 generous coats of Ocean Mist to outside of vase including bottom. Let dry.

Step 2 – With vase upside down, apply one very generous coat of Babbling Brook from foot of vase (now top) down about 3-3 1/2 inches. Let dry.

Step 3 – Use a stiff fan brush, scoop crystals from bottom of jar of Stormy Blue and apply one coat on top of Babbling Brook, but only down about 2-2 1/2 inches. Let dry.

Step 4 – Using a large round brush, apply Magic Flow by dabbing a generous coat on top of Stormy Blue, but only down about 1-1 1/2 inches. Let dry thoroughly.

Step 5 – Fire to shelf cone 06. Fire vase upside down by it on a shelf support with a stilt on top so the inside bottom of the vase balances on the stilt.

Versatile enough to use as candle pedestal or vase.
