Card Platter

project time - 4 hours

INGREDIENTS

BISQUEFIRE

3021 Angled Rim Rectangular Platter

FUN STROKES

FS-2300 Polar Bear

FS-2314 Black Lab

FS-2391 Rockin Red

Step 1- Apply 3 coats of Rockin Red to the center of the platter. Apply 2 coats of Black lab to the rim and backside of the platter. Trace pattern onto platter.

Step 2- Using a Fun Writer bottle filled with Polar Bear, apply one heavy coat to the cards so you just have 4 white cards in the center of the plate as seen in the photo. Let these dry completely. When they are dry apply the letters and the suits with a small detail brush.

Step 3- Shade the left side of each card with Black lab to give the cards some depth. See photo.

Step 4- Apply dice with Polar Bear from the Fun Writer tube with blocks of white, leaving spaces of the black to define the sides of each dice. Let this dry then apply dots with Black Lab.

Step 5- Apply Clear Glaze and fire to cone 06.
