

Recipe of the Month!

Indoor Garden

October 2003
by Dona Marrier

INGREDIENTS

BISQUEFIRE

3 - 2038 Mini Flare Ware Bowls
1 - 3021 Angled Rim Rectangle Platter

FUN STROKES

2300 Polar Bear
2314 Black Lab

FUN WRITERS

Polar Bear
Black Lab

BRUSHES

Colorstix size 12
Colorstix size 6

STEP 1 - Apply 3 generous coats of Polar Bear to the inside portion of the rectangle platter, using the size 12 Colorstix brush and let dry. Apply 3 generous coats of Polar Bear to the outside of the mini flare bowls, using the same size 12 brush, leaving approximately 1" at the top for applying Black Lab later.

STEP 2 - Apply 2 generous coats of Black Lab, using the size 12 brush to the outside rim of the platter and let dry. Apply 2 generous coats of Black Lab stripes to the mini flare bowls as photographed. Also apply Black Lab to the inside of the bowls to just about 1 or 2 inches.

STEP 3 - Using your Black Lab Fun Writer, apply polka dots to the inside portion of the platter and let dry. Using the Polar Bear Fun Writer, write any type of fun message to the black rim of your platter or even just more polka dots.

STEP 4 - Using the Polar Bear Fun Writer, apply squiggly marks to the inside portion of the bowl to the rim and polka dots to the top portion of the rim. See photograph as your reference guide. Let thoroughly dry, dip into clear glaze and fire at 06.

STEP 5 - Silk flowers were used for this garden and were set in specially cut floral foam, topped with green moss. Set the foam into the dish with adhesive to keep the foam from moving.
