2329 HI HO SILVER
2337 LI'L BOY BLUE

2349 TWEETY BIRD

2354 SOMETHING

BLUE

2373 KEY LIME PIE

TOOLS

DETAIL BRUSH
SIZE 4 ROUND BRUSH
SIZE 6 ROUND BRUSH
SIZE 8 ROUND BRUSH
SIZE 12 ROUND
BRUSH
EPOXY GLUE

STEP 1 - To cone 04 bisque, transfer the pattern onto the frame. Starting with the frame, apply 3 coats of Hi Ho Silver for the road. Apply 3 coats of Lime Ricky for the grass and let dry. Apply 2 generous coats of Something Blue for the duck pond. Apply 3 coats of Key Lime Pie for the trees. Apply 2 generous coats of Happy Trails for the tree trunks. Apply 3 coats of Red Rover for the car and the stop sign. Using a detail brush, outline the trees with Green Acres. Refer to the photograph as a guide. Outline the stop sign with Polar Bear. Using the detail brush for the windows of the car and lines in the road, apply 2 to 3 coats of Polar Bear. Using the detail brush, apply one generous coat of Black Lab for the wheels and a stick for the stop sign. Apply 2 generous coats of Polar Bear for the ducks in the pond. Using a detail brush, apply 2 generous coats of Smiley Face for the beak. Using a detail brush, outline the road with Green Acres.

STEP 2 - For the yellow car, apply 3 coats of What A Yolk for the body of the car (refer to the photograph as a guide) Apply 2 to 3 coats of Hi Ho Silver for the windows and the front and back bumpers. Apply one coat of Hi Ho silver for the inside of the wheels. Apply 2 generous coats of Black Lab for the wheels. Apply 2 generous coats of Polar Bear for the front lights. Repeat the same process for the Li'l Boy Blue car.

STEP 3 - Dip the frame into clear glaze. Dip the race cars into the clear glaze and let dry. Fire to cone 06. When the pieces are cooled down, epoxy the backing of the frame and let dry thoroughly then epoxy the cars onto the frame as pictured or anyway that you prefer.
