**Step 1-** Trace snow pattern onto bottom of plate. Apply tape around inside edges of snow.

**Step 2-** Apply 3 coats of Black Lab with the Mop brush to the top of the plate. When painting near the snow, put your brush on the tape and paint away from the snow. This helps to give you a clean edge and prevent the paint from seeping under the tape.

**Step 3-** When dry, remove tape. With a new piece of tape, cover the outside edges of the snow.

**Step 4-** Apply 3 coats of Polar Bear to snow area. Again, place the brush on the tape and paint towards the snow area, over the edges of the tape to prevent seepage. Remove tape when dry. Clean up edges with scraping tool.

**Step 5-** Trace trees in center of platter making sure that trunks overlap snow.

**Step 6-** Using Fun Writers; trace the trees with Happy Go Lucky.

**Step 7-** Using Fun Writers; apply random balls of color on the ends of the tree branches.

**Step 8-** Using Fun Writers; apply random balls of color around the perimeter of the platter.

**Step 9-** Clear Glaze and fire to cone 06.
