# Color Splash Tie-Dye

project time -2 hours

## INGREDIENTS

### BISQUEFIRE

1036 Oval Coupe Snack  
Plate

### FUN STROKES

FS- 2305 Blue Heaven  
FS-2314 Black Lab  
FS- 2315 What-a-Yolk  
FS- 2373 Key Lime Pie  
FS- 2381 Be Boppin Blue  
FS- 2387 Pool party  
FS- 2390 Orange Crush  
FS- 2391 Red Blaze

## Materials:

Mop Brush  
7 Fun Writer Bottles  
Synthetic Sponge

### Color Splash Tie Dye Plate:

#### Special Notes:

**Don't scrape down to the bisque with the fun writer tip when applying colors.**

**Don't tip the plate at all while it's still wet because it will all move.**

**STEP 1-** Apply 2 good coats of Black Lab to the entire plate. Let dry.

**STEP 2-** Use a pencil and mark your design by looking at the photo and draw a line where you see the light blue color (Pool Party). You can use this as a guide.

**STEP 3-** Use all colors from a Fun Writer bottle, preferably with the large size tip. Start with Pool Party. Follow the pencil line. Apply in a zig zag sort just like you see in the photo. Apply the Be Boppin Blue next by going right up against the Pool Party. Float some color into the Pool Party so they blend together. Do this with each color and spread out as you move along so it's wider at one end of the plate and smaller at the other end, like you see in the photo. When it's dry, dip it into clear glaze and fire to a cone 06.

#### Splash of color:

**STEP 1-** Apply 2 good coats of Black Lab to the entire plate.

**STEP 2-** Use all colors from a Fun Writer bottle, preferably with the large size tip. You can use the colors in any order you like. Apply bands of color with the fun writers so the glaze goes on thick and wet and touching each other. Do this as quickly as you can because once it starts to dry it won't flow. Once the colors are all on the plate, tip the plate so that the glazes all flow into one another vertically. Refer to photo to get the idea of what it should look like. Dip and fire to cone 06.
