STEP 1- To shelf cone 04 bisque, apply 4 coats of Ebony. Let dry between coats.

STEP 2- Sponge on 3 smooth even coats of Honey Gold. Let dry between coats.

STEP 3- Trace pattern onto plate. Apply two coats of Fun Strokes 2300 series per pattern. Example: # 25 on pattern is FS 2325.

STEP 4- Make sure all colors are very dry before carving. Using the Wooden Detailer or carving tool of your choice. Carve all detail by going into the top layers of the glazes till you reach the Ebony. Do not carve down to the bisque. When finished fire to shelf cone 06.
